

Animal Marker

Best way to mark the hair

アニマルマーカ― Animal Marker

Safety-conscious animal markers made by hair dyeing professionals

Uses court dyes specified by the Japanese Ministry of Health, Labor and Welfare.

The product meets the quality standards and testing methods specified by law.

Features

- Markers for easy and safe use on mice and rats.
- Available in 6 colors.
(Blue, Green, Red, Yellow, Orange, Black)
- Strong penetration into hair, and the color does not fade easily by licking.
- About 400 to 600 rats can be processed.
(Depending on the size of the animal and the area to be applied)
- No fading during long-term testing, usually colors remain in good identification for 6~12 weeks.
